## BALTIC EVOLUTION

### BALTIC, THE REFERENCE HIGH-END COMPACT SATELLITE SPEAKER.

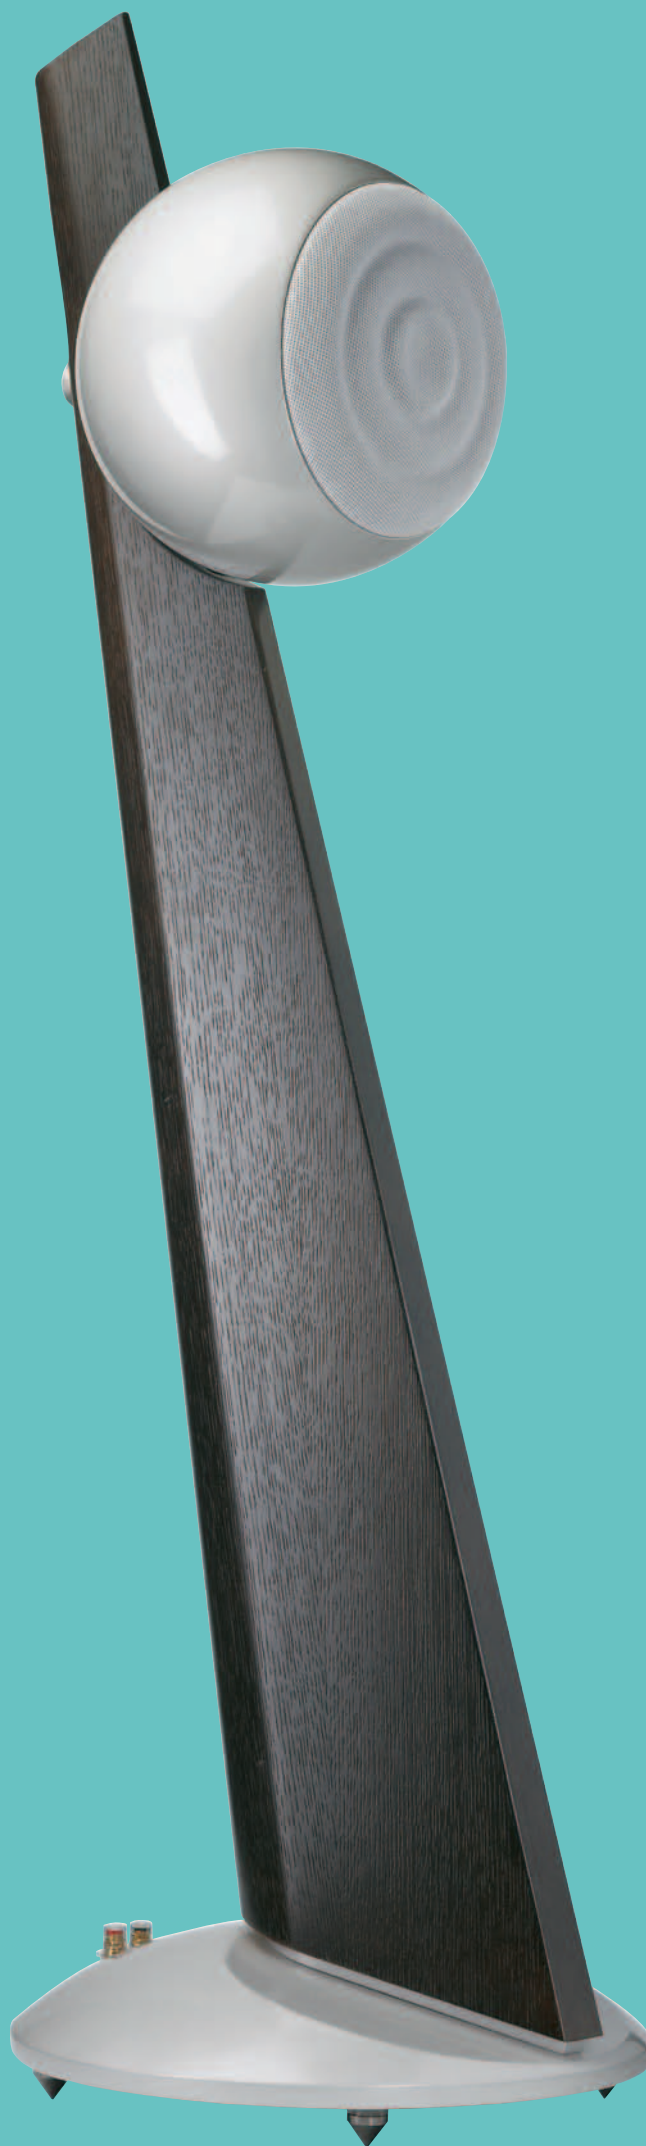

With its unique 3-way coaxial driver mounted in a sphere for a perfectly controlled and homogeneous diffusion, its definition and dynamic range are comparable to the most sophisticated systems available.

The realism and 3D soundstage are exclusive to speakers designed using Cabasse Spatially Coherent System principles.

Only an Evolution of the Baltic and the launch of the TC23 can surpass this long established reference.

This new tri-axial unit offers great improvements with extended throw and power handling for the low-midrange and a new patent-pending diaphragm for the tweeter.

Made from new high-tech material, this membrane provides an ultra linear response up to 25 kHz with no compromise in efficiency or dynamic range.

### EVOLUTION

Tri-axial TC23  
Tweeter with new polyether membrane  
Midrange dome shaped ring  
Low-midrange with long throw  
Duocell ring membrane.

To bring out the acoustical and esthetical beauties of this jewel, we designed a new stand and new finish. The on wall and bookshelf versions are also available in several finish.
