SANTORIN 30

*Cabasse*

## **SANTORIN 30, high-end subwoofer with true parametric room tuning device.**

This new subwoofer concentrates in a compact format the technical solutions applied in the low-frequency section of our flagship "La Sphère": 30 cm honeycomb dome woofer in a closed cabinet, 500 W RMS digital amplifier, precise digital adjustments of all parameters, Cabasse software for acoustical analysis and corrections of the room. The Santorin 30 is delivered with a measurement kit for automatic adaptation of the subwoofer response. Three different – automatic and/or manual – set-ups can be saved and called up with the supplied remote control.

The flat and deep, dynamic and controlled low-frequencies of the Santorin 30 make it the perfect partner for Baltic Evolution and Riga to constitute exceptional stereo and multichannel systems in every type of listening room.

### **Technical Data**

Driver:	1 x 30 cm 30ND40
Frequency response:	22- 200Hz in semi-reverberating chamber
Maximum sound pressure level:	111 dB RMS
Maximum output power:	500 W RMS
Peak output power:	1000 W
Low pass cut-off frequency:	30 to 200 Hz in 1 Hz increments
Phase adjustment:	0° to 180 ° in 1° increments
Delay adjustment:	0 to 6.8 meters in 0.34 m increments
Inputs:	high-level / low-level (RCA + XLR)
Standard finish:	Pearl – Black Pearl
Dimensions :	43 x 36 x 38 cm – 16.9 x 14.2 x 15 in
Weight :	28 kg – 62 lbs
