SOCOA MC170

SOUND EXCELLENCY FOR HOME THEATER

The Socoa MC170 centre speaker is a perfect fit with the rest of the MC170 range for a full multi-channel system. The HDSE filter gives a perfect acoustic fusion between the speakers to create a lively and realistic three-dimensional sonic image.

Cabasse

SOCOA MC170

COAXIAL MIDRANGE-TWEETER

The new two-way midrange/tweeter of the MC170 range is a development of the unit responsible for the continuous success of the Cabasse Eole coaxial satellite. It offers a faithful reproduction of timbres and provides a soundstage with unrivaled realism and depth in its price segment, for both stereo and multichannel use.

HIGH EXCURSION WOOFERS

The specific shape of the 13cm driver unit was specifically designed by Cabasse for maximum mechanical rigidity and lowfrequency use, which results in a deeper bass without coloration. The voice coil mounted on Kapton is perfectly ventilated: high power handling and its acceleration abilities are outstanding.

HDSE FILTERS

The Cabasse measuring protocol in the anechoic chamber takes into account measurements on the listening axis and at 360° around the speaker for perfect control of the directivity and global power output in keeping with the Cabasse HDSE principle (Homogeneous Distribution of the Sonic Energy). Direct and reflected sounds are homogeneous, the sound stage wide and stable.

SPECIFICATIONS

Position	Center
Ways	3
Drivers	Midrange+Treble: coaxial 2-way 10T15MC Low-frequencies: 2 x 13 cm 13TN20
Cross-over point	700 Hz - 3 600 Hz
Frequency response	64 - 20 000 Hz
Sensitivity1 W / 1 m	88 dB
Nominal Impedance	8 ohms
Minimum Impedance	3,2 ohms
Power Handling	100 W
Peak Power	700 W
Dimensions (h x w x d)	18 x 50 x 38 cm
Weight	10 Kg
Finishes	Black Ebony, Natural Oak Glossy Black, Glossy White
