## 2-WAY COAXIAL SATELLITES

Consisting of five new spherical satellites only 13 cm in diameter that swivel in every direction thanks to a magnetic base and a very compact subwoofer, EOLE 3 WS benefits from many aspects of the research investments made in developing La Sphère, the Cabasse 4-way coaxial flagship. One meter high stands are available as option.

The coaxial technology involved in the 2-way driver of the satellite offers a unique accuracy in the respect of timbers as well as in the 3D home theater soundstage.

## EXPLOSIVE AND MUSICAL LOW FREQUENCIES

Powerful and compact, easy to integrate, the Santorin 21 is the ideal subwoofer for home theater and high-fidelity sound in rooms up to 40 m2.
