STREAM BAR

UNRIVALED HOME THEATER EXPERIENCE

Either installed or simply set beneath your TV screen, the Stream BAR catches the eye through its discrete, elegant forms and material. Connected to its subwoofer through an automatic wireless connection, the Stream BAR surprises and charms the ear through its acoustic performance in high resolution video or audio streaming.

STREAM BAR

CABASSE POWER AND 3D THEATER EFFECTS

The high efficiency of the drivers developed for the slim BAR provides fidelity and power in theater sound reproduction together with very low average power consumption. Our team of acoustic and electronic engineers designed a sound

ELEGANCE AND PLUG AND PLAY

The subwoofer automatically connects to the BAR when powered on for the first time. The wireless connection gives great latitude in the positioning of the subwoofer. The HDMI ARC interconnection enables to use a single remote control, the one of the TV screen. The Stream HT remote control gives easy access to settings that provide maximum listening comfort.

HIGH-RESOLUTION STREAMING AND CABASSE HIGH-DEFINITION

When connected via LAN or WLAN to the home router, Stream BAR gives instant access to all the music stored in the network, to thousands of international radios, to audio streaming with Deezer, Qobuz, Spotify and Tidal. The USB input gives direct access to the music stored on a stick or a hard drive disc and play it on the BAR or on any Stream device in the home network. The Bluetooth AptX function provides an easy and performing connection to smartphones and tablets.
