EQ ADDITION FOR PEARL AND PEARL AKOYA APP

Posted on 8th March 2021

Cabasse has launched a new sound profile, called GEN2, available from the Cabasse StreamCONTROL app for both iOS and Android.

Cabasse has integrated the GEN2 sound optimisation EQ, via its StreamCONTROL application directly into its on-board software for its two Pearl speaker designs.

There's actually more than a mere EQ going on here. Cabasse described GEN2 as:

1. Optimisation of the low-frequency dynamics.

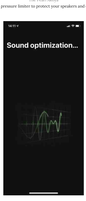
The Pearl

2. Optimised automatic room correction.

3. Dynamic Fidelity Enhancer: The Pearl and The Akoya adapt dynamically to the listening volume.

The Pearl Akoya

4. Introduction of a sound pressure limiter to protect your speakers and eardrums.



The GEN2 profile/EQ is now available via the Cabasse StreamCONTROL application for iOS and Android.

PAUL MOBY

I've been a journalist and editor for 30 years and still retain my good humour. Who'd have thought? I have worked within a range of industries, writing for business, consumer and trade publications. Now I write about all sorts of stuff. My interests relate to music, computers technology, computer gaming, tech, mobile technology, home automation, lady's lifestyle, plastic model making, antiques and more. I currently write for national magazines in the subjects of business, music, hi-fi and general technology.
