

Cabasse Santorin 25: Subwoofer with circular directivity complements the i03 cinema system

According to French audio engineers at Cabasse, the Santorin 25 subwoofer is ready to sound a room up to 50 square meters. m. Naturally, in this case it should be complemented by a set of home theater acoustics – for this, Cabasse offered their i03 system. The design of the novelty repeats the family features of the Santorin models. The main principle is 360 ° sound propagation with a 25 cm downward-firing speaker.

The Santorin 25 has a 25S20 driver with a cellulose fiber composite cone. The movable system design can handle the 400W peak from the TS190 D amplifier without warping or other issues. The rated power of the novelty is 200 watts.

The subwoofer operates from the lower cutoff frequency of 30 Hz, delivering 111 dB of loudness at the peak. The crossover is adjustable between 40-180 Hz and the Santorin 25 accepts an unbalanced RCA input. The subwoofer weighs 17 kg and is available in a black or white matt finish.

The approximate price of the Cabasse Santorin 25 subwoofer in Europe is 950 euros.
