THE PEARL PELEGRINA: Cabasse creates a high-fidelity connected system at € 25,000!

For its 70th anniversary, Cabasse is creating a benchmark High-Fidelity connected system, the epitome of its acoustic know-how and the latest connected technologies: THE PEARL PELEGRINA.

Since 2013, with the emergence of High Resolution dematerialized music, Cabasse has positioned itself as a leader in the design of connected speakers, with the desire to offer the benchmark speaker in high-end connected systems, such as it was able to do this in 2006 with the Sphere, the legendary Cabasse system, in the field of active speakers.

15 years later, and to celebrate the brand's 70th anniversary, Cabasse unveils the flagship of its range of connected speakers: THE PEARL PELEGRINA, a luxurious speaker, with a modern and compact design, combining the best of Cabasse sound and technologies. , for an exceptional listening experience: precision, purity and exceptional dynamic capacity. 70 years of know-how to create this benchmark speaker The arrival of THE PEARL PELEGRINA marks a key date in Cabasse's history: its 70th anniversary.

A long and beautiful story of passion for music, acoustic expertise, but also a brand's modernity, this MASTER PIECE from the THE PEARL Collection – the widest range of High End connected speakers on the market – is called The PEARL PELEGRINA in reference to a rare pearl of 55 carats discovered in 1913 and nicknamed "The Incomparable".

It will see its first 70 pairs with a numbered plate, present on each of the 2 speakers of this exclusive series. Just like the Sphere, The PEARL PELEGRINA meets the criteria of the most demanding music

enthusiasts, audiophiles who want both the purest of sounds, all the ease of access to dematerialized music, and the latest technological innovations, for live at home, every day, all the realism and pleasure of sound as you can experience it in concert. With the privilege of having a rare piece! The PEARL PELEGRINA thus brings together and synthesizes the best of Cabasse's 70 years of know-how:

The best of Cabasse technologies :

- Its famous tri-coaxial – high, medium and low medium: the TCA which is present in the system La Sphère and Baltic V.
- Technologies at the service of a compact concept: sphere of only 42cm in diameter capable of the highest level of performance.
- The culmination of Cabasse research on signal processing for over 20 years.
- Scalable streaming technologies thanks to embedded software.
- CRCS calibration (automatic room correction system), i.e. the presence of a microphone integrated into the speaker so that the sound is optimized according to the listening room.

The best of High Resolution sound:

- Extreme dynamic capability with a new patented 12 " HELD speaker powered by 1850 watts RMS. So there are 4 separate amplifications that total 3700 watts RMS for the 1st quad-coaxial connected speaker in the Cabasse catalog.
- Ultimate precision / timbre fidelity: thanks to the TCA (Tri Coaxial aramid) present on La Sphère, improved by the very latest evolution of DSP (Digital Signal process).
- An exceptional sound rendering to experience total immersion in the heart of sound, with very high precision and purity and an impressive dynamic capacity (134db = sound level of an aircraft on take-off). All the power and realism of a live in your living room!

An extraordinary design for a limited edition to mark the 70th anniversary of Cabasse!

The PEARL PELEGRINA features exclusive materials and luxurious finishes, bringing the ultimate immersive acoustic experience. The ultimate Cabasse sound experience based on an extraordinary design, designed by the brand's French teams and custom-made in Plouzané (Brittany): this speaker measures nearly 1.30 meters in height, the sphere and the base 48 cm in diameter.

Connoisseurs of the brand will recognize in the shape of the foot a reminder of the figure of Lissajous, the name of the physicist who "made sound visible", and the logo that has accompanied Cabasse since its beginnings. Each speaker, like all speakers from The PEARL COLLECTION, is bent with a metal ring, mirror polished, cut to measure for a beautiful effect of shine, and numerous details and finishes that make it an exclusive product.

Invisible, all the electronics, ultra miniaturized, are concentrated in the base. Designed, designed, manufactured in France, and tested one by one with the greatest care in an anechoic chamber, in our workshops in Brittany, these speakers are sold in pairs and fitted with numbered plates on each base (special series – limited edition: 70 issues for the 70th anniversary of Cabasse). LIFETIME GUARANTEE: this speaker benefits from the Cabasse lifetime guarantee to the first buyer on the speakers.

Available with the 2 speakers:

- Application StreamCONTROL
- Bluetooth controller • CRCS calibration (Integrated microphone)
- 4 brushed aluminum decoupling points

- Brand book
- Brushed aluminum number plate on each of the 70 pairs (70 years of Cabasse limited edition) • Protective cover marked Cabasse

Technical characteristics :

134 dB stéréo • 10 – 27 000 Hz • Bas-Medium/Medium/Tweeter TCA • Woofer 30 cm HELD • Amplification • Aigu : 300 W RMS / 520 W crête | peak • Medium : 300 W RMS / 520 W crête | peak • Bas-Medium : 1250 W RMS / 2500 W crête • Grave : 1850 W RMS / 3700 W crête • Ethernet – Wifi – Bluetooth – USB • Optique SPDIF – Analogue RCA Entrée analogique SYMETRIQUE • MP3 – AAC - WMA – AIFF – FLAC – ALAC – Ogg – vorbis – DSD 64/128 – WMA lossless – Calibration automatique • DAC 768 kHz / 32 bits • Multiroom Haute Resolution • 480 x 480 x 1284 mm • 45 kg.

PPI price : € 25,000 per Pair – in metallic black or pearly white Availability date in France: from October 2021.
