

Cabasse marks 70th anniversary with launch of flagship loudspeakers

French company, Cabasse is celebrating its 70th anniversary with the introduction of the PEARL PELEGRINA, a flagship stereo system for Cabasse's PEARL connected speaker line.

Available as a limited-edition luxury speaker, the PEARL PELEGRINA features premium materials and a luxurious finish to provide the ultimate immersive acoustic experience for audiophiles. Designed and custom-built in Brittany, the speakers stand almost 130cm tall, with its sphere and base measuring 48cm in diameter.

The electronics for the Cabasse PELEGRINA have been ultra-miniaturised and concealed in the base, ensuring they are not seen.

Each speaker pair features a numbered plate to identify this special limited edition. Just 70 pairs of the PEARL PELEGRINA will be created by Cabasse, and a lifetime warranty will be offered on the speakers for the first buyer.

Each PEARL PELEGRINA package includes a Cabasse-branded protective cover, Bluetooth remote, brand book, brushed aluminium numbered plaques on each of the 70 pairs, CRCS calibration (integrated microphone), four brushed aluminium spikes, and StreamCONTROL application.

The PEARL PELEGRINA will be available in either black or white and launches this month priced at £22,599 / €25,000 per pair.
